We're proud to present our Fastrider 2021 collection. A range of skillfully created bags and baskets catering the needs of urban cyclists out there, no matter where, why, when or how much they ride. The collection combines the robust appearances of our classic bicycle bags with the contemporary elegance and style of this season's latest products and innovations. Paramount for all products is a strong focus on sustainability, using eco-friendly materials whenever possible. We develop all our bags, baskets and crates with daily use in mind and go the extra mile; ensuring the highest degrees of functionality, durability and water-resistance. We strive to offer every cyclist a suitable bag fitting their specific demands, enabling them to make the most of their time on the bike in comfortable ease — day after day.

RE THINK

The RE THINK program is a crucial part of our intent to move towards a more sustainable line of production. By using eco-friendly materials as recycled polyester and natural cotton we contribute in creating a greener world and a durable future. Items that fit into the confines of this program are marked with the RE THINK tag.

Start Small And Grow

With its RE THINK eco line, Fastrider is taking a step closer a better environment.

Travel Green

By getting on your bike more often, you contribute to a better environment.

Reduce Waste

Waste is reduced by using recycled and natural cotton materials.

Think Different

Why not consider "green" accessories for your bicycle.

Conserve Natural Elements

Reuse of water and other raw materials during production.

Eco-friendly materials

RE THINK'S steps towards a better environment.

Bicycle Bags Trend

The Bicycle Bags Trend Collection is our very own take on contemporary fabrics and designs. Through applying the latest innovations in the industry we present an annual changing program with a fresh appearance throughout the range. We aim for a broad offering of attractive, sustainable yet still highly functional bags. As such, they invariably stand up to the challenge of daily use on the bike, but are also easy to detach and take with you anywhere you might continue your journey.

Metal

Beemster Bicycle basket Fast Lock

24 x 24 x 34 cm

A contemporary classic for a broad target audience: the fine-mesh and coarse-mesh metal baskets from Fastrider are extensively and gladly used by large groups of cyclists who value affordable functionality and style. Although metal bike baskets have now achieved the status of a classic, a lot has changed in the intervening years: in terms of attachment (many baskets are easily removable), diversity (various sizes, coarse or fine mesh), material (special coatings to counter the effects of weather) and ease of use (some models are equipped with combination locks). What all the baskets have in common is the combination of luxury, practicality and a modern appearance.

- Made of coarse meshed metal
- The basket is detachable
- With handle
- Including the Fastlock holder for mounting at your bike
- Especially suitable for Ahead stems with a diameter of 22.2-28.7mm
